

One Step Closer Website Launches

A website for the end-of-life care documentary film being produced by Rainbow Hospice Care's Mike Bernhagen and his friend, Terry Kaldhusdal, is now operational. Please take some time to visit www.onestepcloserfilm.org. While there, you can learn about Mike and Terry's personal calling to the project, view a trailer for the film, meet some of the very special people they've been privileged to interview, and make a tax-deductible donation to the Rainbow Hospice Foundation that will help ensure the film's message is heard. More importantly, if you like what you see there, tell your family, friends and colleagues. Our goal is to receive donations from all 50 states in the union. Both individual and corporate donations are welcome.
